**Mr Ian Amos, Mr Tim Stones,
Sprint Tool & Die Ltd & Capricorn Mouldings Ltd,
Telford, England.**

Dear Ian and Tim,

We have found Sprint Tool & Die Ltd a very reliable partner, and are greatly impressed with their willingness to support, going that extra mile in making sure a positive outcome is achieved against challenging project timescales. This was evident recently with Ian Amos offering us a superfast trial service through Capricorn Mouldings Ltd, for the moulding of samples from a pilot mould tool Sprint had just worked on.

Capricorn were truly impressive in their response to our request, with Tim Stones acting immediately, inspecting the mould, quoting and then setting everything up at their site in Telford. Tim's in-depth knowledge ensured Capricorn achieved all the correct process parameters, leading to a successful trial, and all within only a couple of days. Sprint and Unilever were in attendance to witness and validate the output of the trial, which was a complete success.

Thank you, Ian and Tim!

Yours sincerely,

Eddy Stocker

Future Manufacturing Technologies Director
